## Ashley Awards

### Credit Winners

7LA	M.Cole
7SA	J.Hallwood
8MS	A.Beck
8JO	S.White/L.McBirnie/M.Vickery
8RF	E.Cox
9AK	N.Bell
9KD	J.Churchill
10L	L.Cox
10GG	L.Burke
11RS	No File
11LQ	No File

### Students of the Week

M.Cole
E.Molyneux
C.Vardy
O.Palmer/O.Domalis
E.Cox
K.Darley
J.Churchill
J.Halfpenny-Bell
K.Russell
No File
No File

Class  
Of the  
Week

9KD

## Ashley Action!

**Welcome back** and a Happy New Year to all parents and students from all the staff at Ashley High School. We hope that you all had a peaceful and restful festive holiday.

**Year 9 students** have made Chicken Parmigiana in their Food Technology lesson. Chicken parmigiana, or chicken parmesan, is a dish that consists of breaded chicken breast covered in tomato sauce and mozzarella and parmesan cheese. Students demonstrated excellent knife skills when preparing their chicken to make this dish.

**Geography** Year 9 students have been learning about Environmental issues. Students have examined the implications of deforestation and other environmental threats and have identified these hazards to the environment and considered the moral, social and economic implications. Students have also thought about how their lifestyle choices affect the environment.

**Year 10 students** have been learning about the use of eggs in their Home Cooking Skills course. Students have learnt about the nature and versatility of eggs and have prepared and made Quiches as part of this topic.

**Please see the 'Newsletter' link page** for information about 'Spotlight on Primary Care' and 'Free Saturday Forest School at CAFT'.

## Skills Challenge – Problem Solving

A town has an area of land that is not being used for anything. It has become an untidy, littered wasteland. The people of the town want to improve this and make it a useable space. You have been asked to come up with design ideas of how this area of land could be used and improved. The people of the town would like it to be a useful, pleasant space for people of all ages to enjoy. The town has voted to use only recycled materials for any improvements, so you need to make sure your designs are environmentally friendly. Can you come up with at least 3 different design ideas to solve the problem? Label your design drawings to show the recycled materials you have included and other environmentally friendly features. Do you have a favourite design? Share your design ideas with your family and friends.
